

# CONSTRUCTION NOTICE – Please read carefully

Your street or a street near you will be closed to traffic, including bicycles, for 4 to 6 hours according to the schedule below.  
All work will be completed between 7 AM and 5 PM.

Dear Neighbor,

July 2016

Crews working for SDOT will soon apply a microsurfacing overlay to streets in your area. This will require your street or streets near you to be closed between 7 AM and 5 PM on the date shown on the map to the right. Microsurfacing is a street maintenance technique and consists of asphalt emulsion and aggregate that will require 4 to 6 hours to apply, dry, and be ready to drive, bike, or walk on. If driven on or walked through before it's dry, microsurfacing materials can stain your car, carpets, or floors.

For a larger version of the map, please visit the project website:  
[www.seattle.gov/transportation/Microsurfacing\\_Meadowbrook.htm](http://www.seattle.gov/transportation/Microsurfacing_Meadowbrook.htm).

We realize the inconvenience this creates and appreciate your patience. Our intention is to protect the roadway and personal property during this work.

## Actions for residents and businesses

- Please follow posted "No Parking" signs and detours. Cars parked within the posted work area will be towed away at the owner's expense.
- If you wish to use your car on the day you are scheduled for microsurfacing, we recommend you move it to a street not scheduled for work before 7 AM. Crews will alternate street closures to maintain access to and from the area.
- Please remove other personal items such as flower pots and outdoor furniture from the road.
- For their own safety, please keep children and animals away from the area while work is in progress.
- If it is your normal garbage, recycling, or yard waste day, please have bins to the curb by 6 AM on the day of the work to ensure pick-up. We will not affect pick-up.
- Please do not wash cars or water lawns the day before or during the work. Microsurfacing is less effective on a wet road.

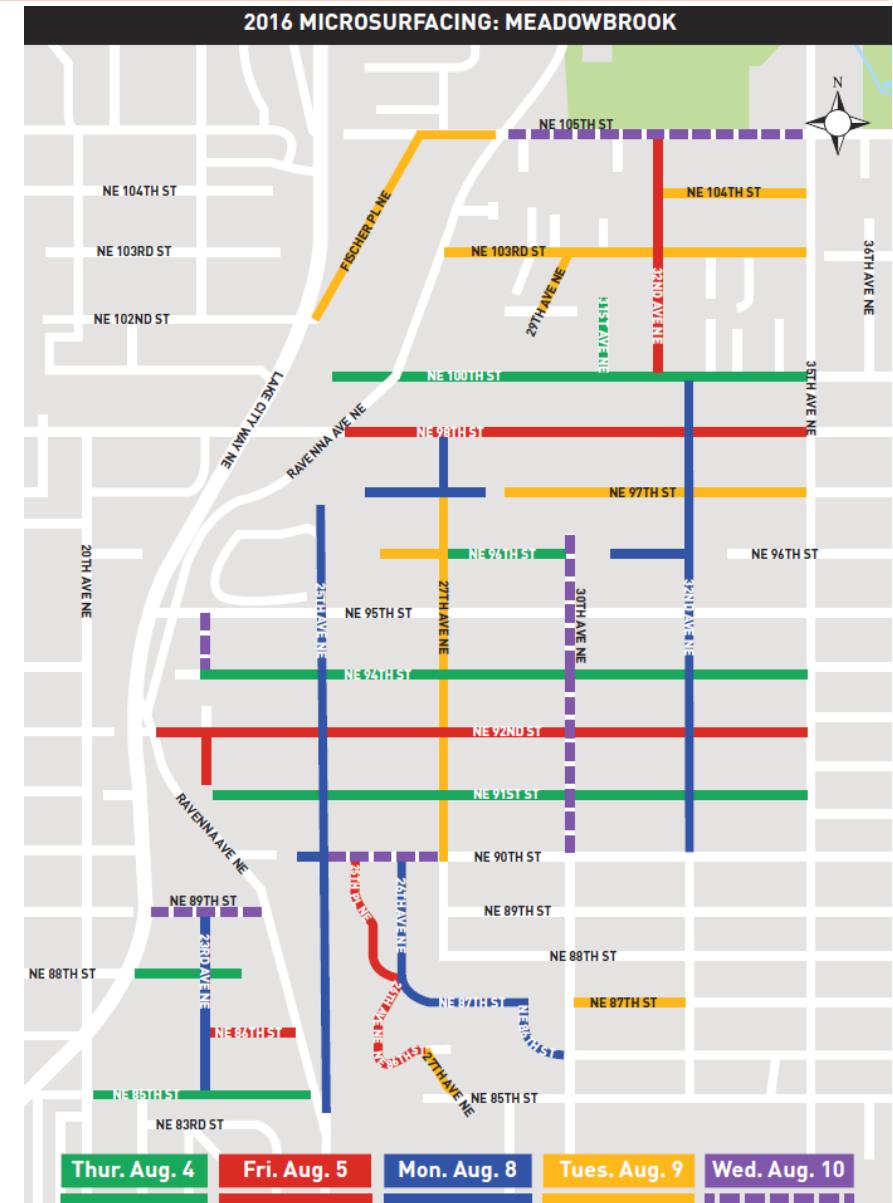

## What to expect

- Please keep in mind that once we have microsurfaced your street, you will not be able to use the street until it reopens to traffic.
- Emergency vehicles will have access to all streets at all times.
- If we are unable to maintain our daily schedule, you will be re-notified of the new date to microsurface your street.

If you have any questions, please contact our project team at 206-727-3669 (voicemail) or [2016Microsurfacing@seattle.gov](mailto:2016Microsurfacing@seattle.gov).

Sincerely,

Art Brochet
